

PMC SERVICE

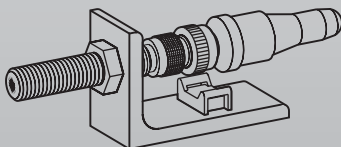

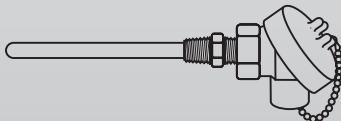

A long time facility of sales and service for machinery control and monitoring equipment, PMC's service department with extensive experience and test equipment will provide the highest quality service possible.

Virtually all types of sensors or equipment can be tested, calibrated and repaired (in house or on site) by qualified technologists.

All test equipment is calibrated and traceable to National Institute of Standards and Technology (NIST) in accordance to ITS-90 and NSI/NCSL Z5440-1.

Test Equipment:

- Process calibrators:
 - current
 - frequency
 - pressure
 - temperature
 - voltage
- Temperature dry block calibration
- Temperature / humidity environmental chamber
- Shock / vibration environmental test bed
- Network diagnostic tools
- Spectrum analyzer, storage scopes, function
