

# IMACS 8540-1866 Series

The 8540-1866 Watchdog Timer module uses advanced timing technology to monitor control system integrity.

Loss of control caused by CPU latch-up, control system faults and loss of power can be detected. A versatile dry contact output is de-energized upon time-out which can be used to alarm, reset or shutdown a system or process, depending on the application.

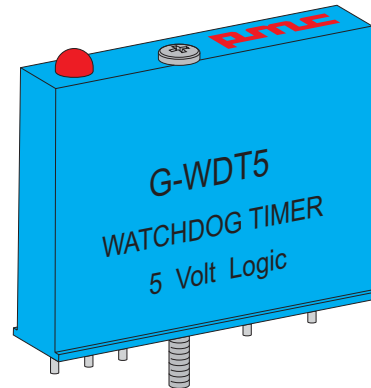

## FEATURES

- LED status indicator
- System fail-safe
- Versatile dry contact output
- 200 V, 1 A 20 VA contact
- "Loss of control" detecting
- -40 to 85°C operating temperature

## WATCHDOG TIMER MODULE

DRY CONTACT OUTPUT G-WDT5
